"SQUARE DEAL OR FIGHT THE CITY!"

Is the Declaration of Mayor J.
T. Hinton In Regard to the
Natural Gas Situation in Paris.

SECRETARY OF COMPANY
AGREES TO THE DEMAND

Mayor Issues Statement in Which
He Sets Forth His Action to
Protect Gas Consumers.

"Unless the Paris Gas & Electric
Co. accede to our demands in our
efforts to protect the consumers of
natural gas from the possible attempt
to operate under the old franchise
which they now hold, we will exert
every legal effort to annul the fran-
chises and if the worst comes we
will build our own electric light and
gas plant," was the stern declaration
of Mayor J. T. Hinton yesterday af-
ternoon after discussing at length the
visit of Mr. H. W. Beck, Secretary of
the Light and Development Co. of
St. Louis, which owns and operates
the local plant, and which purchased
the franchise recently granted the
Central Kentucky Natural Gas Co.

For the past several weeks the at-
titude of the Paris Gas & Electric Co.
in its refusal to specify which con-
tract it will elect to operate under,
has greatly perturbed the consumers
in this city, with the result a number
of citizens have refused to sign the
contracts furnished by the company,
and natural gas has been cut off
from a large number of residences.

The local officials of the company,
it has been contended, were not aware
of the course the Light & Develop-
ment Company intended to pursue,
and the matter was taken up with
the head office in St. Louis, resulting
in a visit by the Secretary of the
company to ascertain the cause of
the seeming dissension among the
consumers of this city and to confer
with the city officials.

A meeting of the Council which had
been called for yesterday morning was
postponed at the solicitation of Mr.
Beck, who after a conference with
Mayor Hinton, decided to return to
St. Louis to secure a contract, which
it was said would be acceptable to
the city. The city officials are deter-
mined in their efforts to force the
company to meet the demands and will
accept nothing that will not be
favorable to the consumers. The
agreement between the lighting
company and the city will be binding
in every respect and the only con-
dition upon which the company will
be allowed the right to retain the old
franchise will be in that case that it
is needed for the distribution of arti-
ficial gas should be supply of natural
gas be exhausted. In regard to the
situation Mayor Hinton yesterday is-
sued the following:

MAYOR HINTON'S STATEMENT:

It having been reported that the
Paris Gas and Electric Company had
signified their intention to use the old
franchise for the distribution of nat-
ural gas after they had purchased the
new franchise recently granted the
Central Kentucky Natural Gas Com-
pany, notice was served on the Paris
Gas and Electric Company that the
city authorities would not submit to
the abandonment of the new fran-
chise which contained restrictions as
to price and service that were not in
the old franchise. A meeting of the
Council had been called for Thursday
morning to take official action in this
connection. Wednesday morning Mr.
Beck, the Secretary of the St. Louis
Company which controls the Paris
Gas and Electric Company, came to
this city to confer with us in regard
to the situation. He was told that
the city would enter legal proceedings
to annul both franchises and prose-
cute the case through the courts of
last resort and use every means avail-
able to force them to give to the citi-
zens every right to which they are
entitled under the new franchise. Mr.
Beck stated that it had been their
intention to use the old franchise for
the reason that it might be needed
for the distribution of artificial gas
in the event that the natural gas
should ever become exhausted.

It was agreed with Mr. Beck that
his company might hold all its rights
for the use of artificial gas under
such condition, but that an agreement
must be made in writing that would
positively insure to the city every
right given in the new franchise for
natural gas. After talking over the
long distance phone with his attorney
at St. Louis, Mr. Beck assured us that
his company would act in good faith
with the city and that he would re-
turn to St. Louis and have their attor-
ney prepare a contract which would
meet the demands we are making if
it were possible to do so and protect
their own interest. Mr. Beck was
given to understand that in no way
would we withdraw our demand—
that whatever contract he should sub-
mit must positively guarantee every
restriction and privilege given by the
new franchise, and that unless they
did so guarantee we would proceed
to take such steps as are necessary
to secure to the citizens their full
rights, even if it should be necessary
to recommend to the people the
building of their own light and gas
plant. With Mr. Beck's assurance
that they would meet the conditions,
the meeting of the Council that had
been called was postponed until Mr.
Beck may have time to submit his
proposition, which he has promised
to do at once.

J. T. HINTON.
Mayor.

REALISTIC SCENES

Will Be Shown in Miniature at Conservation Congress.

Washington, Nov. 6.—Realistic rain storms and foresters riding the rail, fighting fires and herding thousands of sheep and cattle, will be seen in miniature at the Fifth National Conservation Congress, in this city, November 18, 19 and 20. By arrangement just closed with the United States Forest Service, the working and management of Uncle Sam's forests will be shown in Washington for the first time since these forests were created. Different parts of the exhibit have attracted conspicuous attention at expositions throughout the country, but never have so many phases of forestry, water power and conservation been shown at any one time as will be seen during the Conservation meeting next month. The exhibit will be seen on the tenth floor of the New Willard Hotel, where the sessions of the Congress will be held. It will be open free of charge to all who register as delegates or visitors to the Congress.

Forest rangers, fresh from the trail, and other men in charge of the practical management of the Nation's forests will be on hand to explain it. In addition to the forests themselves, the exhibit will include an interesting display of many queer instruments used by woodmen in their work. Into the many windows which light the rooms will be set beautiful colored glass transparencies, showing scenes from the national forests. These have been made from actual photographs. The forest ranger will be shown riding the trail. Pictures will show how the rangers build the trails and how they fight forest fires. The protection of wild game of the forests will be a striking exhibit, as well as the photographs of tens of thousands of sheep and cattle that graze on these vast Government domains.

One of the most interesting exhibits will be a miniature look-out tower, the rangers often discover fires at such a great distance that it takes days to ride to them. There will be an equipment station showing the tools with which the rangers fight the fires. Many fire fighters lost their lives in the forest fires of 1910. Another model will show a national forest as it appears before and a sit appears after a timber sale and will illustrate how Uncle Sam's foresters cut and utilize the government timber to the fullest extent without letting any of it go to waste.

Water power development in national forests will be shown by maps, charts and colored transparencies. This feature will include the amount of water power available in the national forests in the West and in the new national forest, in the Southern Appalachian region.

One of the most interesting exhibits will be that of the Western Forestry Conservation Association, composed of five of the Pacific Coast States, showing how the Association educates the people and the school children to the importance of the protection and use of the forests.

Another model will present a realistic rainfall. One half of the model, filled with earth, is covered with miniature trees and moss. On the other half the earth is left bare. The artificial rain storm brings out plainly the way in which the bare ground is washed away, while ground covered with trees hold its place. The famous White House map of the country's natural resources will also be seen. This was the first map ever made by the government and has attracted attention at many expositions. It was constructed for the now historic White House Conference of Governors, in 1908, at which the Conservation movement started. It will now be shown in Washington for the first time since the White House Conference.

GRIEF-STRIKEN DUCK TAKES HIS OWN LIFE

Grief-stricken as the result of the death of its mate, a duck belonging to W. E. Hughes, a prominent young business man of Sharpsburg, is said to have committed suicide by hanging itself in a fence. Mr. Hughes had only two ducks among his flock of fowls, and killed one to eat. Returning he missed the other duck, and as the result of the search for it, found it had hung itself and was dead. The duck was suspended by its head, which was securely fastened in a wire fence.

DISCUSSED IN BULLETIN

As the Culture and Use of Fine-Cured Tobacco.

Washington, Nov. 6.—The normal annual production of fine-cured tobacco on a farm-weight basis is estimated to be about 215,000,000 pounds, according to Bulletin No. 16 of the Department of Agriculture. This type of tobacco is the only American grown variety that has shown a tendency to expand our exports. About 40 per cent. or around 90,000,000 pounds is exported and the remainder is used in domestic consumption.

"All things considered, this fine-cured tobacco is unsurpassed in universal popularity," states the report, "and it is adopted to a variety of uses, including granulated and cut smoking tobacco, both paper and all-tobacco cigarettes, and plug filler and wrapper; in fact, it is adapted to all the regular forms in which tobacco is used except standard cigars and snuff. In color and general appearance it is very attractive, while its low nicotine content, mildness, aromatic sweetness, fragrance and good keeping qualities render it satisfactory to the user."

The use of flues in curing tobacco became popular after the close of the Civil War and be the middle eighties the demand had increased so that about 20 countries in Virginia and North Carolina had been planted to this variety. There are a number of varieties of fine-cured tobacco, prominently among which are the Marne, Yellow Oronoco, White-stem Oronoco, Big Oronoco, Adcock, Adkin, Willow-Leaf, Gooch, Tilley and Hester. The Warne is the standard wrapper type and perhaps the most popular. The Adcock is a great favorite in the noted wrapper-producing section of Granville county, North Carolina, while the Adkin is popular as an early maturing variety.

Apart from the natural character of the soil itself, there is no more important matter for the tobacco grower to consider than the management of his fields. Indeed the character of the tobacco produced will depend as much on how the fields have been handled in rotation between the successive tobacco crops as upon the fertilizer used or the cultivation given directly to the tobacco crop itself. Tobacco land should be so handled as to keep it in good life. A liberal supply of vegetable matter in an advanced stage of decay is highly desirable, but it should be of the kind not excessively rich in ammonia.

It is well known that the organic matter of freshly cleared or broom-swept fields is of a kind well suited to tobacco. It consists principally of dead leaves, twigs, roots, pine tags, broom-sedge and roots. Such vegetable matter, while poor in ammonia, by its ample volume makes the soil very mellow and friable and of good water-holding capacity. There is probably no better humus crop for rotation than herd's grass or red top.

Specking, or "diseasing," as it is generally called, is the most common disease injury to which tobacco in the fine-cured district is subject. It is believed to be a fungus disease, disseminating by spores. The only practical method of reducing the injury to the crop caused by the disease is by using potash more liberally in the fertilizer, which seems to increase the resistance of the plant to the disease.

SAVED HIS FOOT.

H. D. Ely, of Bantam, O., suffered from horrible ulcer on his foot for four years. His doctor advised amputation, but he refused and reluctantly tried Bucklen's Arnica Salve as a last resort. He then wrote: "I used your salve and my foot was soon completely cured." Best remedy for burns, cuts, bruises and eczema. Get a box today. Only 25c. All druggists, or by mail. H. E. Bucklen & Co., Philadelphia or St. Louis. Nov. (adv)

The area of the public parks and gardens in Copenhagen belonging to the municipality amounts to about 125 hectares (309 acres), of which about seventy-five hectares 158 acres have been added during the last 35 years.

From the four Nova Scotia coal fields—Sydney, Inverness, Pictou and Cumberland—nearly seven million tons of coal were mined in 1912. Approximately half of this amount was sold in the maritime provinces, the rest going to Quebec ports and to the United States.

Vast Improvements Made For The Chicago Stock Show.

Contrary to the generally accepted belief the exhibitions of live stock in the United States are the greatest in the world. Not only are the displays of animal excellence themselves superior to all others, but the equipment for the staging of the shows and the accommodation of the visiting public is far better and more comprehensive than in any other country. Vast improvements have been made the past year in the sitting of the International Live Stock Exposition, which will this year be held from November 29 to December 6. Concentrated, though safe and sanitary stabling and display of animals, commodious lecture halls, a magnificent exhibition arena, together with all necessary comforts for visitors—all, as it might be said, beneath one roof—from a combination not hitherto contemplated in connection with any other live stock show.

In no other country is the show yard so closely associated with the national educational system, in none is the whole scheme and plan of exhibition arranged so that each season's prize winners may be brought before a court of last resort for final alignment, as at the "International," which will this year be held from November 29 to December 6. Here alone of all the great world's shows may the best of all useful breeds of farm animals be seen in the foremost estate in one grand display.

In the United States we have the best, and the best of the best may be seen each year at the "International." Many foreign countries have great individual exhibitions, but by common consent of all the world's highest authorities, the "International" is an easy leader. At this show may be seen the pick of the foremost foreign breeds massed together well nigh beneath a single roof.

Gathered in their thousands at the greatest railway center in the world, the animals at the "International" offer a liberal education in themselves to all who care to study them. Here all of our master breeders, and many from foreign climes, take post-graduate courses. Money paid out in attending the show is regarded by them as the most profitable, sound and remunerative they can make.

To keep up with the trend of live stock breeding, the farmer and stockman must needs attend the "International." He must study the work of the judges, and if he cares to, and goes the right way about it, he may learn from the lips of these judges their reasons which governed their awards.

It is a show by the people for the people, of the people. Its guiding principle is the greatest good to the greatest number. It offers a matchless opportunity to study, to learn, to meet and know the master minds in live stock circles. Any farmer who fails to attend the "International" deliberately deprives himself of an asset—a valuable asset which in after

years would have bulked large in his store of knowledge and beyond peradventure in his bank account also.

An American engineer, who has just returned from abroad, had an opportunity of making an investigation into the condition of St. Paul's Cathedral, which is in rather an alarming condition because of threatened collapse. Some proposed underground connections have been abandoned owing to the frail condition of the historic structure. According to the engineer referred to the cause of the building's distress seems to be due to two causes—settlement of the foundations and failure of the material used in the foundations. It has been discovered that some of the stones made use of by Sir Christopher Wren, and which are now supporting a weight of thirteen tons to the square foot, were taken from the original building and were, therefore, centuries old before being placed in the present structure. The stones bear evidence of Norman workmanship.

Cat Only Living Thing on Derelict.
From a derelict ship a cat was rescued near Plymouth, England, a few days ago. H. M. S. Donegal had received orders to search for and sink the derelict Norwegian barque Blenmark. The Glenmark had been dismantled and abandoned more than a month ago. Her crew was rescued and taken to Liverpool by the steamer Dunholme. The Donegal picked up the ship 500 miles out, but finding the hull sound determined to save her. The only living thing on board the derelict was a cat, which had been driven mad by thirst and which severely bit a bluejacket who stroked it.

HURST DEFEATED BY C. A. MCMILLAN.

Democratic Candidate For County Judge Wins By a Majority of 683 Over Republican Opponent.

WOODS DEFEATS ELLIS IN COUNCILMAN RACE.

Third Ward Goes Democratic By a Large Majority—Both Amendments Carry.

With only two offices in the county contested the election passed off quietly Tuesday, and resulted in a splendid victory for the Democrats, who rolled up one of the old-time majorities.

The offices in which the Democratic nominees had opposition were those of County Judge and Councilman from the Third Ward in this city. Both Democrats swept the slate and won by majorities beyond the expectations of the most sanguine politicians.

C. A. McMillan, Democratic nominee for County Judge, was opposed by Mr. D. M. Hurst, of Millersburg, and the face of the returns show that McMillan carried every precinct in the county with the exception of four which went for Hurst, three of them by the narrow margins of from four to eight votes. The largest majority received by the Republican candidate was in Millersburg-No. 2, where he led his opponent by seventy-one votes.

In the city McMillan carried every precinct, the entire six precincts giving him a majority of 405. His majority in the county was 683.

In the Third Ward in Paris Jack Woods, Democrat, defeated George Ellis, Republican, by a majority of 103 votes for the office of Councilman. The vote is as follows:

ELECTION IN MILLERSBURG

The election in Millersburg passed off quietly Tuesday, a light vote being cast. In the first precinct the election of city officers occurred. W. D. Wadell was elected Mayor, T. P. Wadell Police Judge and members of Council W. A. Butler, Rufus Butler, William Miller, Ed. Ingles, P. D. Jones and J. J. Peed, without opposition.

RETURNS FROM THE STATE.

Returns from practically every section of the State show a general Democratic victory in the county elections, while the Legislative races give the Democrats an enormous ma-

jority in both the lower and upper houses.

One of the surprises of the day was the sweeping victory of the Republican ticket in Breathitt county, while Barren also furnished a surprise by electing a Republican representative.

Returns from the constitutional amendments are far from complete, but in nearly every case where they have been received they show that both the amendment providing for convict labor on roads as well as the change in the tax system have carried. The vote on the amendments, however, generally was small, as compared with the vote in the general election.

Lexington Democrats put their entire ticket through without any trouble.

From the returns already received it appears that J. P. Adams, Republican has defeated Hugh Riddle, Democrat, for Circuit Judge in Breathitt district.

In the contest for the county seat of McCreary county, Whitley City appears to have won over Pine Knot.

One of the features of the election was the small vote recorded by the Progressives throughout the State, and they will not have a member of the General Assembly.

In Louisville, Buschmeyer, Democrat, defeated Axtom, Fusionist, and the entire Democratic ticket was elected.

The Democrats elected a full ticket in Woodford county.

Madison county went Democratic by a majority of over five hundred.

The full Democratic ticket was elected in Nicholas county Tuesday.

A full Democratic ticket was elected in Clark with the exception of a Councilman in the fourth ward in Winchester, where Horace Colreane, a negro, was elected over J. D. Jones, the Progressive candidate. It has been declared Colreane will never fill his office.

Late reports are to the effect that both amendments to the constitution carried by a big majority.

FISCAL COURT ORDERS THAT A SUIT BE INSTITUTED.

A suit to recover the value of stock held in the Citizens Bank, of Paris, by the Bourbon County Fiscal Court as trustee of the Garth Fund, a fund used for the purpose of educating the worthy young men of Bourbon county, to the value of about \$8,000 will be instituted within the next few days by County Attorney George Batterton, acting under the order of the court which met in regular monthly session yesterday.

At a meeting of the court two months ago, Justices John J. Redmon and R. H. Burris were appointed a committee to deliver to Buckner Woodford, Sr., assignee of the late institution a resolution passed by the court asking that action be brought immediately in an effort to recover the loss. The committee yesterday filed with the court a written report in which was embodied a reply from Mr. Woodford in which it was stated that under the conditions he thought it best that such a suit, which if brought should be under the direction of the Fiscal Court, and acting upon this an order was entered instructing County Attorney Batterton to institute action immediately.

This suit according to Mr. Batterton, will be brought at the November term of the Bourbon Circuit Court and will be instituted jointly against the assignee of the Citizens Bank of Paris, directors, president and other officers concerned.

A committee composed of R. H. Burris and John N. Shropshire, reported that a settlement had been made with Road Supervisor C. F. Redmon, and the report of the committee was ordered of record. Judge Denis Dundon presided over the session of the court with a full board of magistrates present. No business of importance was transacted other than for work on the turnpikes and monthly accounts and the passing of a few minor orders.

HEAVY SUIT FOR DAMAGES FILED AGAINST RAILROAD CO.

W. E. Henry, through his attorneys, Talbott & Whitley, of this city, filed suit in the Bourbon Circuit Court yesterday against the Louisville & Nashville railroad for damages in the sum of \$25,000, alleged to have been sustained as the result of an accident in which the plaintiff sustained permanent injuries.

In his petition the plaintiff alleges that while he was employed on a work train hauling stone and dirt South of Berry in Harrison county, the train was run to a sharp curve in the road and at this point he took his position on the ground to relay signals to the engineer. A plow used to unload the train was attached to the engine by means of a cable five hundred feet long, and when the locomotive was uncoupled from the train the plow was moved across the top of the cars.

The cable, it is alleged, was jerked over the short standards, striking the plaintiff with such force as to throw him a distance of twenty feet, fracturing a number of ribs and throwing his body and head against the steel rail of the opposite track broke his skull, burst an eardrum, fractured the base of the skull and injured the spinal cord, inflicting permanent injuries from which he has suffered and continues to suffer, and which necessitated several surgical operations about the head and brain.

The plaintiff in his petition further alleges that the negligence of the company in failing to furnish appliances reasonably safe to do the work, was responsible for his accident, and he prays for relief in the above sum.

CHRISTMAS SEALS TO BE SOLD ALL OVER STATE

Red Cross Christmas seals which are issued annually by the American Red Cross Society, and are for sale annually by the American Red Cross Society, and for sale during December, to provide funds for the anti-tuberculosis crusade, will be sold all over the State of Kentucky this year. Mr. Ray C. Risley, of Frankfort, is the general manager for the State sale.

In communities where there are active anti-tuberculosis societies, supporting nurses or doing educational work, the local sale is managed by that society, which will receive 85 per cent. of the proceeds. After the expenses of the sale have been paid, any balance remaining will be held in trust by the Kentucky Tuberculosis Commission, and spent by them in whatever way promises to yield the best results. Such funds may be used to establish open air schools, pay the salary of a visiting nurse for a county, or distribute to consumptives instructions in regard to home care for the disease.

The sale in Kentucky was small last year. The Commission this year hopes to dispose of 1,500,000 seals.

"MY LAST RIDE" SAID DAVIS AS HE PLUNGED FROM MOVING CAR

Plunging from an interurban car which was running at a high rate of speed, a man identified as J. R. Davis, a carpenter residing near Muir, Fayette county, just over the Bourbon line, met almost instant death.

Davis boarded the interurban car leaving Lexington at 5:15 and due to arrive here at 6 o'clock yesterday afternoon and when in front of the home of George Graves, about three miles from the city limits, walked to the rear platform and said to the conductor: "This is my last ride." He then leaped from the platform of the car which was running at a rate of about thirty miles an hour. Davis struck a trolley pole, and his head was crushed.

As soon as the car could be brought to a stop it was run back to the man who was lying by the side of the road. Dr. William Kenney, of this city, who was a passenger on the car, made a hasty examination and as there was a slight indication of life, he advised that he be taken to Lexington. He was placed aboard the car and rushed to that city, but death ensued en route. It was some time before his identity could be established.

DEATHS

LOVELY.

—Mr. A. J. Lovely, aged fifty-four years, died at his home, 404 North Limestone street, Lexington, at nine o'clock yesterday morning, after an illness of ten days of pneumonia. Mr. Lovely was a native of Paris and spent most of his early life here. He was connected with the Kentuckian-Citizen in this city and later with the Paris Democrat.

In 1882 he was married to Miss Anna Pugh Bedford, of Paris, and she with their four children survive. The children are Mrs. Alexander Tingle, of Paris, Misses Lucille and Nell Lovely, and Mr. Jesse B. Lovely, of Lexington.

The funeral services will be held Saturday afternoon at his late residence in Lexington, conducted by Rev. Mark Collins. The body will be brought to Paris on a special car at 3:30 o'clock p. m., for burial in the Paris Cemetery. Rev. J. T. Sharrard will conduct the services at the grave. The pall-bearers will be Chas. W. Fothergill, William Remington, J. C. Elgin, Sr., Wyatt Thompson, George M. Hill, George Howard.

REPORT OF THE SALE OF WILLIAM FARRIS.

At the sale of milk cows, dairy outfit, farming implements, etc., of Mr. William Farris, held Wednesday, there was a good crowd in attendance and everything brought good prices. Col. George D. Speakes, who conducted the sale, makes the following report:

Fifty head of milk cows brought from \$20 to \$122.50 each; horses, \$45 to \$225; a pair of ponies, \$275; yearling mule, \$85; 200 pound meat hogs 7 1-2 cents per pound; 17 heifers, \$20 to \$35 each; calves, \$11 to \$15; geese, 65 cents each.

All of the cows and most of the other stock were bought by Thompson Bros., of this county, who also purchased the dairy equipment, and will get immediate possession of the business, so there will be no interruption in the delivery of dairy supplies to the regular customers. Farming implements brought good prices.

NEGRO FATALLY WOUNDED IN SHOOTING AFFRAY.

As the result of a shooting affray which occurred Wednesday afternoon in front of the restaurant of Ratliff & Reed, near the Louisville and Nashville railroad, S. P. Woods, is in a Lexington hospital suffering from a dangerous wound in his abdomen, which may prove fatal, and George Simpson, the other participant, is in jail with a bullet in his right leg. Both are negroes.

The shooting which is said to have been the result of a quarrel over the attentions one or the other was paying to a colored girl, took place in the presence of a number of witnesses. Conflicting stories, however, are told as to who fired the first shot. Employees at the restaurant of Ratliff & Reed state that Woods had made several trips there in search of Simpson. They met on the platform at the restaurant about 3:30 o'clock when the shooting occurred.

Patrolman Link, who had been at the depot was going up Tenth street in the direction of Pleasant when he heard two shots in rapid succession and rushing to the scene found both men clinched and making an effort to bring their revolvers into play. Woods called loudly for assistance and the timely arrival of the officer prevented further use of the pistols. Simpson was taken to the county jail and Woods was removed to the office of Drs. Fithian & Daugherty, and later taken to Lexington hospital in an automobile.

According to the statement of Simpson, Woods fired the first shot through the pocket of his trousers, and after being wounded in the leg drew his revolver and fired. Woods declared Simpson fired the first shot and in an effort to get his revolver out of his pocket it was discharged. Simpson, who came here from Carlisle, has been for some time employed at the restaurant of Ratliff & Reed.

D. D. D. In Hospitals, Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON frankly

C. E. BUTLER & CO.

writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the liquid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

The Latest Adder

Costs But \$35

See our exhibit—ask for

10 days' trial

Here is a new price on a competent Adder. On a machine that is rapid, full size and infallible.

The very latest machine, built by men who know how, in one of the largest metal-working shops. It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine, requiring skilled operators.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.

The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes.

Countless offices, large and small, are getting from these machines the highest class of service.

Manufactured and Guaranteed by

AMERICAN CAN COMPANY, CHICAGO

Sold by Joseph Candioto Co., Lexington, Ky.

LAXATIVE FOR OLD PEOPLE—"CASCAETS."

Salts, Calomel, Pills, Act on Bowels Like Pepper Acts in Nostrils.

Get a ten-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascaets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascaets, and they cost only ten cents per box at any drug store. They work while you sleep.

The highly important announcement from London of the discovery of a method for bottling for use the incessant and inexhaustible emanations of radium follows gratefully upon the news of the finding of a great deposit of uranium and pitch-blende in a Saxony mountain range, and the two give promise of the breaking of the radium "corner" which has been holding that valuable chemical at a needlessly high price.

The number of steamers of the French merchant marine in commission at the close of 1905 was 1,471, of which 569 were registered by the only French classification company, the Bureau Veritas. The like statistics at the close of 1911 showed 1,726 as the effective total of French steamers and 945 as the number of these steamers as classed by the Bureau Veritas.

FARM MACHINERY

Proper Care Is To Keep It In Proper Adjustment.

The first step in the proper care of farm machinery is to keep it in proper adjustment. As a rule new machinery is in fair adjustment and needs little attention in this respect, but it is often sticky and otherwise unsatisfactory in its action on account of the manner in which it was painted at the factory. By cleaning out the oil holes and applying a few drops of kerosene, this difficulty may usually be overcome. It is wise to run new machinery "light," that is, with its moving parts in action but without a load of any sort, until it is well limbered up. This will put the machine in running order without undue strain and gives an opportunity for adjustment if it should be found necessary.

Machines which have been in use some time should be put in proper adjustment when they receive their periodical over-haulings, and should be given careful attention in this respect during the entire time that they are in operation. Cleanliness is as important with farm machinery as with any other class of machinery. Dirt and poor service seem to go hand in hand, and dirty farm machinery cannot be expected to give its full efficiency because dirt upon metal absorbs moisture which attacks the metal and in time seriously injures it. Also, dirt in the bearings even in small quantity quickly destroys them by grinding and cutting, and in large quantities may even choke the action of the moving parts. Again, dirt does not add to the appearance of farm machinery in any way, and may at times even get into the eyes of the operator. Therefore the second step in the care of farm machinery is to keep it as clean as conditions will permit. An old broom will be found useful for cleaning, also a handful of waste or soft rags and a squirt oil can filled with kerosene. If possible, the machine should be thoroughly cleaned when the season's work is completed, and during the process carefully examine for worn or broken parts, which should be marked in some conspicuous way and noted in a list of repairs which are to be purchased later for the farm equipment. It seems hardly necessary to say that the machines should be stored when not in use, in a dry place, which means dry underneath as well as overhead. Some system should be used in storage so that those machines which are frequently used should be easily gotten at. All bright metal parts should be coated with either hard oil, axle grease or a compound composed of equal parts of lard and white lead.

That part of the farm equipment which is made wholly or partially of wood will require especial attention in the way of painting, since wood absorbs moisture readily and rots rapidly. It is a well-known fact among country blacksmiths that those farmers who keep their wagons well painted have occasion to have them repaired less frequently than those who neglect to give them attention. Especially is it desirable to give the wagon felloes a thorough soaking in oil. Wheels so treated are not apt to require the customary cutting in dry seasons because there will be little expansion and contraction of the wood with the varying moisture conditions of different seasons.

Sometimes considerable difficulty is experienced in securing the necessary repairs for farm machinery and valuable equipment is discarded because the owner is unable to locate the manufacturer of the particular piece he needs. Local dealers can always render great assistance at such times of difficulty. If they are not able or willing to give this assistance, then an appeal should be made to the State Agricultural College, which is usually in a position to supply information in regard to such matters and is always glad to give advice and assistance in connection with any problems in farm equipment.

GIRLS! STOP WASHING THE HAIR WITH SOAP!

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possesses an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff, stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what sunshine and rain are to vegetation. It goes right to the roots, its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You surely can have lots of charming hair! Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

NEWS OF MILLERSBURG

Mrs. Turner Patton visited friends in Carlisle Tuesday.

Mr. Joel W. Mock left Tuesday for a business trip to Ashland.

Mrs. John Williamson will entertain Wednesday beginning at noon.

Mr. W. D. McIntyre was in Lexington on business yesterday.

Mrs. C. B. Smith was in Cincinnati on business Wednesday and Thursday.

Mr. C. W. Corrington was in Cincinnati on business from Tuesday until Thursday.

Messrs. G. W. Judy and Levie Trotter, of Lexington, were here on Tuesday to vote.

Mr. and Mrs. Comadore Grinnell moved Wednesday to Paris, where they will make their future home.

Mr. and Mrs. T. J. Prather left Wednesday for a visit to Mr. and Mrs. E. T. Beeding at Lexington.

Rev. A. S. Venable was in Vanceburg from Monday until Wednesday in the interest of the Presbyterian work.

Mr. and Mrs. J. J. Feed and daughter, Miss Carrie, were guests of Mr. and Mrs. Albert Hinton at Paris Monday.

Mrs. M. E. Martin entertained eight little folk with a dinner Monday in honor of little Miss Elizabeth and William Howard Mock.

Mr. T. D. Stewart, of Red House, arrived Tuesday to assist in the work at the L. and N. depot during the absence of Mr. W. V. Shaw.

The ladies of the Methodist church served oysters at the furniture store of Mr. M. E. Pruitt on election day. A nice little sum was realized.

There will be a student's recital in piano and expression at the M. F. C. to-night, to which the friends and patrons of the institution are cordially invited.

Rev. and Mrs. Julian McClintock, of Cornith, were guests of their parents, Mr. and Mrs. Thos. McClintock, and Mr. and Mrs. Hugh Campbell, from Tuesday until today.

Mr. M. E. Pruitt arrived Monday to take charge of his undertaking and furniture establishment recently purchased from Mr. Joel W. Mock. He has closed out his business at Burnside. His family will arrive later.

The following are among the number who attended the Presbyterian Convention at Carlisle from Monday until Thursday: Mesdames A. S. Venable, America M. Butler, O. R. Rankin and daughter, Edgar Hurst, J. A. Butler and Elizabeth Ingels.

Miss Aleta Wilson entertained seventeen of her young friends with a six o'clock dinner Tuesday evening, the occasion being her fourteenth birthday. The hours were from 6 to 10 o'clock. The beautiful Wilson home on North Main street was decorated with cut flowers, the color scheme was pink and white which was thoroughly carried out. A delicious menu was served. After dinner rock was indulged in and the occasion was one long to be remembered. Mrs. Wilson, the mother of the young hostess, who is an adept in entertaining, left nothing undone to make this a pronounced success.

Mr. Jules Falk, of New York, who delighted a large audience in this city

last year, will give a violin recital at the M. E. C. Monday, November 10, at 8 o'clock under the auspices of the Y. M. C. A. of the college. During a former visit to this city Mr. Falk, who enjoys the distinction of being one of the foremost violinists in the United States, created a most favorable impression and no doubt he will be greeted by a large audience. Mr. Falk will be passing through this section enroute for the South and it was very fortunate he was secured to give a recital here. While in this section he will be the guest of Mr. and Mrs. L. Wollstein, of Paris.

WOMAN'S AUXILIARY TO HOLD BISHOP'S DAY MEETING

The Woman's Auxiliary of the Episcopal church will hold its Bishop's Day meeting for the branches in the Blue Grass at the Church of the Advent, in Cynthiana, on Tuesday, Nov. 11. The order of exercises will be as follows:

11 a. m.—Spiritual instruction by the Bishop, followed by the administration of the Holy Communion. The offering will be for objects connected with the conference.

DECLARE WAR ON COLDS

A crusade of education which aims that common colds may become uncommon within the next generation, has been begun by New York physicians. Here is a list of "don'ts" that the doctors say will prevent the annual visitation of the cold:

"Don't sit in a draughty car."

"Don't sleep in hot rooms."

"Don't avoid the fresh air."

"Don't stuff yourself at meal time. Overeating reduces your resistance."

To which we would add—when you take a cold get rid of it as soon as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all dealers.

MATRIMONIAL.

THOMPSON-MARSHALL

Dr. A. P. Abbott, of Louisville, formerly connected with the Government Agricultural Experiment Station, and located in Paris, was married in Maysville Wednesday, to Miss Nannie Marshall Thompson. The wedding was a quiet affair and took place at the bride's home, the Rev. A. F. Stahl officiating.

PEEBLES-BARCLAY

Invitations as follows have been received by relatives and friends in this city.

Rev. Crockett was formerly the pastor of the Methodist Church in this city, and was very popular with a large circle of friends who wish him much happiness.

SPRAKE-BOSWORTH.

Mrs. Lucy T. Sprake received a telegram Monday announcing the marriage of her daughter, Miss Russell Sprake, to Dr. Robertson Bosworth the ceremony being performed in Chicago by Rev. Dr. Marvin. The bride is a beautiful young woman of unusual charm, and a successful professional nurse, ranking very high in her chosen work. At the time of her marriage she was the Superintendent of a large sanitarium at Battle Lake, Minn. Dr. Bosworth is a leading physician, and is the medical advisor of all the sanitariums in Minnesota. He is certainly to be congratulated upon winning such a fine young woman for a life partner. Their acquaintance began several years ago in Denver, Colo. Dr. and Mrs. Bosworth will be at home after Nov. 15, at 524 Laurel Avenue, St. Paul, Minn.

COMMISSION FIRM FILES INCORPORATING ARTICLES

Articles of incorporation have been filed with County Clerk Pearce Paton by the Paris Produce Co. The incorporators are Messrs. N. F. Brent, J. W. Bacon and F. P. Walker, all substantial business men of this city. The company is capitalized at \$20,000, and the stock, which is divided into 200 shares of the par value of \$100, is subscribed for by Messrs. N. F. Brent, sixty shares, J. W. Bacon, thirty shares, and F. P. Walker, twenty shares. The balance of the stock is to be disposed of.

The purpose of the corporation is to do a general trading business, such trading in and purchasing, preparing for market, shipping and selling dressed poultry, provisions, meats and other articles, to handle same on commission and to act as agents. The principal offices of the firm will be located in this city, but the business may be carried on at all points necessary. The firm commenced business yesterday, when the president, vice-president, secretary and treasurer were elected to conduct the affairs of the company, with seven directors who will be elected by the stockholders.

The highest amount of indebtedness that the company can incur is placed at \$50,000. The private property of the incorporators and stockholders will not be liable for the corporate debts.

The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

Royal Baking Powder has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.

In breeding gold fish, an industry has flourished in China from time immemorial, the eggs are removed from the reach of the adult male fish and hatched by the sun in shallow dishes.

COMPARE OUR PRICES.

OINTMENT

THEATRICAL.

"Sapho" at The Columbia.

On Monday, Nov. 10, the patrons of The Columbia will have an opportunity to see one of the finest as well as the most sensational pictures ever shown in this city—"Sapho," in four reels—taken from the novel of Alphonse Daudet and from Olga Netherole's famous play, which stirred all theatre-goers a few years ago to a frenzy. This picture is produced by one of the best of the French makers of films, and the acting and the scenery are the finest ever shown in a picture of this kind. Mlle. Cecile Guyan as the worldly "Sapho," and lower, are the leading characters in this sensational picture, and with these two celebrated French players in the leading role of this play the public can be assured of seeing a picture that they will not soon forget.

"Sapho," denounced at the time of its writing in an age of prudery as immoral, is now everywhere recognized as a great moral lesson. It is bold in its treatment of the facts of life, but the boldness is for the best. This picture, "Sapho," is to the picture films what the much-talked-of play, "Damaged Goods," is to the stage. Every one who can see this picture at The Columbia Monday should not fail to do so, as it will be a picture which will long be remembered. It will be shown for one day only, both afternoon and evening, and owing to the enormous cost of production, of this picture, the admission for this day will be 20 cents. Mr. Percy Reed will be heard in one of his favorite songs at each performance.

Columbia Theater.

"The Ironmaster," in two parts, a picture play which deals with the Civil War, will be a feature at The Columbia tomorrow.

The scenes in which the reception of the bulletins announcing the fall of Fort Sumter in the Little Southern town is shown are convincingly realistic. So, also, are the cavalry skirmishes and attacks upon the Iron Works. The whole plot gives a fine opportunity for vivid action of the most absorbing kind—and the story is so clearly indicated, from scene to scene, that explanation is unnecessary.

A comedy reel will be shown entitled "Faded Beauties." Mr. Reed will sing "Anna Eliza's Wedding Day."
